My job is easier because of the quality of the materials...and my students are more excited to learn English because the material challenges them in just the right way, offering a task that takes some struggle, but can be overcome... Now, our students' writing ability is significantly higher than before, and they are often able to read the short phrases in the stories they're presented without teacher aid... They like seeing just what they can do, and being able to hold a book that they read on their own makes them visibly proud."
